Q & A

© 2023 Tempo. Confidential & Proprietary.

Where can I learn more about LiquidPlanner features and functionality?

Learn more about LiquidPlanner by visiting the website. While you're there be sure to check out the Academy lessons and videos for deeper understanding.

You may also schedule a demo to meet with a Product Advisor.

Does LiquidPlanner have an API?

Yes! The API became available in 2022 and receives regular updates as new features are released. Please visit the API Guide and post questions on the API Support & FAQ page.

What is on LiquidPlanner's roadmap this year?

We have a lot planned for this year including reporting, guest dashboards, timesheet locking and in app comments. The Jira integration is underway and more integrations will follow, stay tuned! Release Notes are posted on the blog.

What should I do if I am interested in the LiquidPlanner + Jira integration?

We have an early access program for LiquidPlanner + Jira integration. You can reply to the email or send the request to solutions@tempo.io if you are interested in participating in the program.

Will LiquidPlanner integrate with Tempo products?

The relationship between our two companies is still quite new and we're just beginning to explore the possibilities. We're excited to expand and strengthen our shared mission to help teams build better together. If there's something you'd like to suggest, please add it to the Idea Portal on Tempo's website.

Is LiquidPlanner replacing any Tempo products?

LiquidPlanner is not replacing Tempo products. We look forward to growing together as we build and expand, delivering even more value to our customers. We expect LiquidPlanner will be a meaningful component of solutions we introduce in the future.

I use LiquidPlanner Classic, how can I migrate to the new version?

We built a migration tool that moves data over in one click - it's pretty slick! Book time with a Product Advisor who can help you determine the right timing and provide tips for preparing your workspace to ensure a smooth transition.

Is there a sunset date for LiquidPlanner Classic?

There isn't a sunset date for LiquidPlanner. We are working to achieve feature parity between Classic and New so customers can migrate when the timing is right. In the meantime, we're committed to the stability and security of the Classic product which serves customers well.

Will LiquidPlanner remain a stand alone product?

Yes. LiquidPlanner will continue to support existing customers and welcome new ones. The care and service you are accustomed to will continue as well. LiquidPlanner is a stand alone solution within the Tempo suite.

How can I learn more about Tempo?

You can learn more about Tempo by visiting tempo.io, or contact us if you have any questions!
